

Park Derochie Environmental Policy

With the safe planning for the health and safety of our employees also comes the need for the protection of the environment and the community at large. Park Derochie is fully committed to the protection and stewardship of the environment.

We shall manage our business with responsibility so as to ensure that, as a minimum, recognized standards and environmental legal requirements are achieved.

Through careful monitoring of all company activities associated with the environment, assessing, identifying and implementing controls necessary for proper use and disposal of hazardous materials; we not only reduce the impact on our surroundings but also preserve them for the future.

All employees are responsible and accountable for operating in an environmentally responsible manner.

With all employees co-operation and the adherence to our Environment Management System (EMS), Environmental Construction Operation (ECO) Plan, Safe Work Practices, and Job Procedures; we will achieve these goals.

Mark Walker

President
